

Western Australian Satellite Technology and Applications
Consortium (WASTAC) Presents the

WASTAC Seminar

WASTAC is a consortium with a strategic plan to :

“Improve the economy, society and environment through the acquisition of satellite observations of Western Australia and its oceans for research and near-real time applications.”

In line with its objectives WASTAC has a strong focus on education and provides remotely sensed data free to students.

This **free** WASTAC Seminar will:

- outline what data are available through WASTAC,
- how to access data, and
- showcase current applications.

DATE : Thursday 28th September (during study week!)

TIME : 9 AM – 2.30 PM (including a free lunch!)

Venue : Conference Room

**Leeuwin Centre for Earth Sensing Technologies
65 Brockway Road Floreat (next to CSIRO)**

The seminar is aimed at providing students commencing a research project in 2007 with an appreciation of how remotely sensed data may be used and how to access WASTAC's expertise.

Present your project proposal on the day in 2 minutes and 1 powerpoint slide for the chance to **win a \$200 book voucher**.

For more info and to view the full seminar program visit the WASTAC website : www.wastac.wa.gov.au

Register your interest in the seminar and/or summary of your project idea through the Program Co-ordinator :
